

A Proposal
to
Occupy Congress
Let's Sweep the House in 2012

This proposal goes out to all General Assemblies of the Occupy Movement for review,
modification and consensus.

Whereas, we the people of the United States feel that our current elected representatives as a collective group are not acting in good faith on behalf of 99% of citizens,

And whereas, we recognize that while some representatives are good people they are operating in a broken system,

Therefore let it be resolved that, in 2012 we shall elect a clean slate of representatives of, by and for the people.

Selection of these representatives will be through a local consensus process of General Assembly made up solely of those residents of the voting district to be represented.

Those people selected to represent the voting district attest and agree to the following:

1. To serve one term as elected representative and return to the citizenry after that term.
2. To represent only the local citizenry of their respective voting district and not to represent any party, ideology or interest that precludes compromise and consensus building on behalf of their constituents.
3. To only accept contributions to the campaign for office those that come through and are approved by the General Assembly Finance Committee. For all contribution made, the General Assembly Finance Committee shall verify and attest that the contribution is made on behalf of a local constituent. No contributions shall be accepted from interests other than those of the district members.
4. To use the General Assembly consensus building process in the implementation of legislation once elected.
5. To regularly consult and abide by the wishes of the consensus of the General Assembly.

So Let it be so resolved and adopted on this _____ day of _____, in the year _____.
(Date) (Month) (year)
